- The seats have the ability to move back and forth with the mechanism under the seat.
- The metal parts are mechanically and chemically cleaned with phosphate after, they will be painted with electrostatic powder paint.
- This paint has high resistance to corrosion, suitable for climatic conditions

Artificial Leather Features:

1. Artificial leather name / color:
2. Fiber composition of Artificial leather: 76% PVC 22% Polyester 2% Vinyl Acrylic
3. Weight of m² (minimum): 600 gr / m² +, - 10 gr / m² (ISO 3801)
4. Flame retardant artificial leather (B1)
5. Leather will be manufactured with 3 mm anti-flame lamination

Seat Foam Features:

1. Physical use properties and breaking strength of PU foam used in the seat: (ISO 1798-76) 108 Kpa.
2. Tear strength: (ASTM-D3574) 1,47 N / cm
3. Hardness Strength: ILD 50% (ISO 2489 - 80) 20 kgf
4. Permanent deformation: 50% (ASTM-D 3574) <8%
5. Density: 55 kg / m³ (+/- 5kg / m³

- Data & phone sockets and electric socket set on the desktop. In aluminum box with special cap.

- Cable entry between tables

- Main cable entry

- The seat and table are fixed to the floor.
- With the help of a special mechanism, only the seat can move back and forth.
